IT'S EASY TO FIND WORK

-but the worker who desires to find the best opportunity to serve and to earn will advertise. Classified advertising does not cost much. It is not "out of reach" to anybody. And it may be relied upon to find for you the work which you can do best, and through which you can earn most. A small investment which has in it such possibilities is not to be overlooked.

Sheep Graze Near Railway Track.
Practical use has been found for
thousands of acres of land, now lying idle, along railway rights of way, says the Popular Mechanics way, says the Popular Mechanics Magazine, Sheep are tethered with slip lines so that they can graze without danger of being killed by passing trains. Wire, stretched taut, is stapled to the telephone poles and sheep are kept within safe bounds by a rope terminating in a ring that slides on the wire. In Illinois, where the plan has been tried out, the grass between two alternate poles has been found sufficient for one animal. American Justice.

New York, Aug. 2.—Six presenteday boxers, three of them chame-pions, can be ranked among the craftiest pugs in ring history. Johnny Kilbane, king of the feather-weights, is a boxer of this class; Benny Leonard has proven himself to be an exceptionally; clever lad, as well as a terrific hit-ter, and Ted Lewis, welter-weight champion, is another "phantom" in action Along with these three champio

comes the Gibbons brothers, Mike and Tommy; Packy McFarland and Jack Britton, who has fought many a whirlwind battle with his rival. Ted Lewis, and who, if he could hit like Leonard, would have an almost flawless record over a pe. od of fifteen years in the ring. Britton has been a clever lad from his early days in the ring. He had natural ability as a boxer, and whon he was younger he possessed quite a wallop. Britton today is a verit-

able ghost in the squared circle He is one of the hardest men in the came to hit and he never fails to put up a good exhibition.
